NATIONAL FORESTS
PLAYGROUNDSOne Half Million People Seek
Health and Recreation in
National Forest Re.
serves.

NUMBER INCREASING EVERY YEAR.

Washington, D. C., August 31.—Before the year's outdoor season is over nearly half a million persons will have sought recreation and health in the National Forests of the United States. According to the U. S. Department of Agriculture, the total last year was, in close figures, 466,776. With the finest mountain scenery and much of the best fishing and big game hunting in the United States, the National Forests, made more and more accessible each year through protection and development by the Government, are fast becoming great National playgrounds for the people.

The use of the Forests for recreation is as yet in its beginning, but is growing steadily and rapidly in some of the Forests at the rate of a hundred per cent annum. The day seems not far distant when a million persons will annually visit them.

Of the natural wonders and landmarks of interest in the National Forests several have been set apart as National Monuments, among them Cinder Cone, a great lava basin in California; the Gila Cliff Dwellings, extensive remains of a prehistoric race in New Mexico; the unsurpassed Grand Canyon of the Colorado, in Arizona; Jewel Cave, South Dakota; Lassen Peak, the terminus of a long line of extinct volcanoes in the Cascades; the Pinnacles, a collection of remarkable jagged peaks in California; and the Tonto, a group of prehistoric ruins in the Tonto Forest in Arizona. The Big Trees, Glacier Park, the Petrified Forest, the Oregon Caves, and numerous other phenomena serve to attract other hosts of visitors.

The sportsman finds his paradise in the National Forests. In many of them big game abounds. The rangers and the guards, besides the service they perform against the spread of fire, often point out the best site for the camper and the easiest route. A record of 9,218 miles of trail out, 1,296 miles of road laid out, and 4861 miles of telephone line strung tells what the Government has done in the way of pushing the conveniences of civilization into the primal forest. The day of the wilderness of the savage and the pioneer is swiftly passing; the day of the National Forests as productive resources and as National parks approaches. The report of last year's administration by the U. S. Department of Agriculture evidences the rapidity of the transformation.

\$28,000,000 STOLEN

During Past Five Years by Bank Officials and Government Employees.

Theft from two banks made known within the last few weeks have compelled the attention of the American bankers' association to this class of crime. That it is on the increase is shown by perusal of the records for the last five years, during which time more than \$28,000,000 has been embezzled from banks and trust companies in the United States.

In the federal prison at Leavenworth, Kans., where prisoners are received from all over the country, the banker convicts exceed every other class of prisoners, except burglars and mail robbers. There are thirteen former officials of banks doing time in Riverside prison, Pittsburg. The number of banker convicts in Sing Sing could not be ascertained, as the records were not available.

The number of bank officials and the total amount of thefts recorded do not tell the complete story of bank thefts. To avoid publicity, the banks frequently take their losses without reporting to the authorities or prosecuting offending employees.

The Lash of a Fiend

Would have been about as welcome to A. Cooper, of Oswego, N. Y., as a merciless lashing. Cooper, who had dedicated all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery, which cured me completely. I never enough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, grippe, asthma, hemorrhages, croup, whooping cough, or hay fever. It cures quickly and never fails to satisfy. A trial convinces. 60c, \$1.00. Trial bottle free. It's positively guaranteed by all druggists.

"Generally debilitated for years, had sick headache, lack of ambition, was weak, out of all run down. Burdock Blood Purifier made me a well woman."—Mrs. Charles Fisher, Meigs Co., Conn.

DRYS WIN AT CROFTON

No More Boose Sold in This Place Next May.

The dries won in a hard fought battle of the ballots at the local option election held there Monday, Aug. 29. Owing to the excellent work of the women and children, aided by the better element of the male population of the town, both white and colored, a majority of 58 was rolled up in favor of the dry side. The last saloons, having licenses, will expire next May, and after that time the little city of Crofton will be found in the ranks of the rapidly increasing majority.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by King & Son.

Mrs. Patterson Passes Away.

Mrs. Elizabeth Patterson, the mother of Mrs. T. J. Featherstone, of this city, died at the home of her daughter, Mrs. W. I. Saddler, near Springfield, on Thursday, Aug. 18, of infirmities due to old age.

The funeral was held from the old home place on Willow street and the remains were followed to their last resting place in Elmwood cemetery by a large number of friends and acquaintances. The casket was literally covered with beautiful floral designs, placed there by the loving hands of many friends.

In speaking of the sad occurrence the Springfield Herald, edited by S. O. Murphy, son of the deceased, says:

"Our loss and grief is unspeakable, but to the divine will of Him, who doeth all things well, we bow in humble submission. She was a good mother, a faithful and devoted friend. We feel that no higher need of praise can be bestowed."

Yellow complexion, pimples and disfiguring blemishes on the face or body can be given rid of by doc-torizing the liver, which is torpid. HERBINE is a powerful liver corrector. It purifies the system, stimulates the vital organs and puts the body in the best vigorous condition. Price 60c. Sold by St. Bernard Mining Co., Incorporated, Drug Department.

News of the Mines

Mr. John M. Major has leased the Aberdeen coal mines in Butler county and will take charge early in the fall. There are 1,800 acres, of which 400 are Green River bottom. In addition to operating the mine Mr. Major will engage in farming and stock raising. He and his family left Tuesday for Morgantown, going by private conveyance, and will spend several days looking over property and arranging for their future home.

"Can be depended upon" is an expression we like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by King & Son.

Louisville Booster Trip Postponed.

The following letter regarding the proposed Louisville heads of houses' swing around the circle, has been received by Mayor Jas. R. Rahn:

Louisville, Ky., Aug. 30, '10. To His Honor, the Mayor, Earlinton, Ky.

Dear Sir:—We regret very much that circumstances make it absolutely necessary for us to postpone the Western Kentucky Trip until the latter part of September or the first of October. The committee found that a large number of our business men, who were considering making the trip, could not get away on the dates previously selected.

We trust, however, that you will arrange your program for our reception for the later dates with no chance except as to time.

Yours very truly,
A. B. LIPSCOMB,
Secretary.

Swellings of the flesh caused by inflammation, cold, fractures of the bone, toothache, neuralgia or rheumatism can be cured by the use of BALLARD'S SNOW LINIMENT. L. & N. Settles With Parties.

The L. & N. railroad company has made settlement with O. H. Lynn and R. P. Kellick, through Walter Thompson, for their land at the price determined by the circuit court last week. Lynn received \$180 and Kellick \$900.

Of Interest to Fans

Manager Chance is in a bad way now for left-handed pitchers.

Davy Jones and Ty Cobb are going along in a peaceable manner again.

Jack Coombs has already won more games this season than he did all last year. He is proving to be the best man on the Athletic's strong staff.

Manager George Stallings of the Highlanders, still thinks the Tigers are to be in the running for the flag. That is saying a lot for the manager that expects to be there himself.

Manager McGuire is planning on another swing in the Naps and putting Lejoie back on first. Turner will go to second in that case and one of the youngsters, Peckinpach or Kussup, will go to short.

The average baseball scout earns his salary many times over by keeping his club from signing dead ones. The general opinion of a scout is that he is sent out to pick every player that is recommended to him.

Big Ed Walsh, the star twirler of the White Sox, is disheartened. The reverses that the "Speed Boys" handed him recently, have rendered the former spit-ball wonder bereft of his old-time effectiveness.

Fred Clark is far from being too old to play the game yet. In Saturday's game between the Pirates and the Doves the Pittsburgh leader made two two-baggers, a triple and a single. Not so bad for an old fellow.

Danny Shaw is bolstering up his pitching staff in Kansas City very materially. Frank Owen, the old Sox pitcher, was secured recently and now he has secured Bill Powell from the Pirates. Dusty Rhoades was with the Blues all season.

The Cleveland team has added two more youngsters to the list for 1911. Outfielder Burns of the Danville Three I League team and Outfielder Oallahan of the Eau Claire team of the Wisconsin-Minnesota league were purchased the other day.

INFANTS BODY FOUND IN STABLE AT ST. CHARLES

Believed That Horrible Crime Has Been Committed.

The skeleton of a little baby was found Tuesday in an old abandoned stable at St. Charles. Coroner J. M. Stevens went to that place, and together with two doctors, an inquest over the bones was held. The doctors could not tell how old the child was but from the size of the bones, they believe that it was under one year of age.

No one knows anything about it, who its parents were or how its death occurred.

The doctors are certain that the baby was white.

A private search is to be made to discover the parents of the child.

A hammer discovered within a few feet of the skeleton had blood stains on it, and Coroner Stevens is of the opinion that hammer was the instrument used in killing the child. The county authorities will investigate the matter and if the death of the baby was due to foul play, punishment will be meted out to the guilty party if found.

The remains were interred at St. Charles.

THERE IS A REASON

Why it pays to advertise in the SEMI-WEEKLY BEE:
It reaches a large number of wage earners who take no other paper.

It has an almost exclusive circulation in a community where \$50,000.00 in money is paid out each month.

It is read by hundreds of people who buy what they want and who have money to pay for what they buy.

The only way to get your advertisement before the people of Earlington, Morgantown, Gap, St. Charles and immediate vicinity is through the medium of the Earlington Bee. A hint to the wise is sufficient.

Teddy Talks Honesty.

Col. Roosevelt began his tour of the West by talking honesty and declaring that he would insist on honesty upon the part of public servants if it broke business. He has right in the beginning put his finger upon the dirtiest stench and the worst spot in American politics. Dishonesty in its various forms is the curse of the nation. The grafter seems to be the leader in politics. From the Ohio Roads politician to the Congress of the United States there is one continuous and unbroken line of dishonesty. It invades the country Court House, the State Capitals, the City Halls and the Legislative Branch of Government. The country fairly reeks with it and staggers under it. From selling out for an office to selling out to a trust, it seems that no office is too insignificant to have its graft and none to great for the same insidious and dishonest influence. Men bribe their way into office that they may get rich by selling out to a greater briber. The hired lobbyist infest our State Capitals and our National capital and dictate legislation by means of his purse strings. All such legislation is for the benefit of some special interests that can afford to pay for what it gets, and at the expense of the public. The people themselves are largely responsible for this condition of things as they elect the men to office who rob and pillage them and enrich themselves after they get in. The majority of people are honest, but too indifferent to their own interests and the public welfare and often times too ignorant in casting their votes.

Col. Roosevelt has sounded a key note for American politics in his demand for honesty. Above every political question, above party lines, above personal interests there must be an increased demand for honest public service and an equal determination to put the grafters behind prison bars, or force them from office into obscurity. It is necessary to call the attention of a reading public to the charges against Senator Aldrich in regard to the rubber trust, to the Legislative bribery cases in Illinois, to the bribe of \$30,000 offered Senator Gore, to the charges of bribery against Congressman Sibley and the hundred of other cases that are continually coming before the public to awaken it to a sense of its danger and the menace to the country.

W. J. Patterson of Tennessee

said he would rather vote for a straight Republican than a crooked Democrat. He was right. We demand more of this kind of sentiment in this country. No party line ought to be strong enough to force an honest man to vote for a dishonest one, for the racial when he gets in office has no politics and no higher motive than to feather his own nest. It is time that honest men stood together to drive the grafters away from the public crib. A party which nominates a dishonest man is better served in his defeat than in his election and the voter had better do violence to his party association than his conscience. Honesty in public life, if it injures and destroys business, says Col. Roosevelt, and to this we say, amen.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on the prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by J. C. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, O., by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 25c per bottle. Take Hall's Family Pills for constipation.

BROUGHT TO LIGHT

Earlington People Receiving the Full Benefit.

There have been many cases like the following in Earlington. Every one relates the experience of people we know. These plain, straightforward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mrs. R. A. Smith, Wilson Street, Earlington, Ky., says: "I am glad to publicly recommend Doan's Kidney Pills. My kidneys were badly disordered and the pains in my back were so acute that I could not stoop without suffering severely. The pain often extended into my sides and became more severe if I stood for awhile. I had dizzy spells and many times was forced to grasp something in order to steady myself. I also suffered from terrible headaches and many days could scarcely get out of bed. I can safely say that I spent more than one hundred dollars for medicines and doctors' treatment, but I obtained scarcely any benefit. On the advice of a friend, I procured a box of Doan's Kidney Pills at the St. Bernard Drug Store, and began their use. This remedy cured me in less than two weeks."

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

Life of Roosevelt and His Strenuous Hunt in the Deep Wilds of Africa!

The Semi-Weekly Bee one year and the Book for \$1.50, price of book alone

The book comprises nearly four hundred large octavo pages, printed on fine paper and beautifully bound, with scores of magnificent, full page photograph engravings of scenes in the heart of Africa; its dark mysterious forests, mighty rivers and far stretching plains; with pictures of lions, elephants, giraffes and of other strange animals, hitherto unknown to civilization, that Theodore Roosevelt has killed.

What a scene for a thrilling story! Africa the Dark Continent, the Land of Mystery. Mere descriptions of it have always been interesting. The accounts of Livingstone and Stanley have sold heavily in United States, but the story of Theodore Roosevelt, who is one of us; the every day, intimate history as told by the friends and companions of his trip, has a fascination absolutely incalculable.
